

Landscape Architect and founder/partner date of birth 1963

Christ-Jan van Rooij is one of the founders of OKRA. He is mostly active in leading complex projects in urban and landscape development projects on a wide range of design assignments. The emphasis within this package is on the realization of urban developments. In his work the accent lies on leading design processes in combination with the realization of larger inner city projects. The Mechelen Melaan project in Belgium is in itself an example, a project which is accompanied from concept until realization.

Christ-Jan van Rooij is tutoring at several educational institutes. He has taught at the Academie van Bouwkunst in Amsterdam, de Agricultural University of Wageningen (International Course Landscape architecture), School of Arts Utrecht and the Van Hall, Larenstein Institute in Velp.
